PG Courses Discover an array of specialized PG courses tailored to enhance your expertise and propel your career to new heights. Diploma Courses Diploma courses are shorter programs that assist students in specializing in a specific skill and entering the workforce quickly. After 10th, 12th, graduation, or post-graduation, they have the option of being pursued. Job Oriented/Vocational Programs Padmashree is offering various skill

upgrading and job-oriented courses under DDU Kaushal Kendra recognized by UGC, New Delhi B.Voc Food Processing and Nutraceuticals PIMS - Padmashree Institute of Management & Sciences offering Food Processing and Nutraceuticals Course. Best Food Processing college in Bangalore. Get Admission Now! View B.Sc. Food Technology (Bachelor of Science) Students learn about food science, technology, and the processes involved in food production, processing, and preservation through a three-year undergraduate program known as a Bachelor of Science (B.Sc.) in Food Technology. View B.Sc. Clinical Nutrition & Dietetics B.Sc. in Clinical Nutrition and Dietetics is a three-year undergraduate degree program that teaches students how to use their knowledge of food, people, science, and medicine to prevent and treat diseases. View B.Sc. Food Science & Nutrition 3 Year UG degree Course. Get Admission now. B.Sc. Food Science & Nutrition (Bachelor of Science) is a 3 Year Under Graduate course. The main focus is on the interface between Human Nutrition and Food Science, and the integration of these two disciplines. Padmashree Institute of Management and Sciences. View B.Sc. Biotechnology Course | Get Admission in Best UG Course in Bangalore B.Sc. Biotechnology is a 3 Year Undergraduate Course that emphasizes the intersection of biology and technology. Find the scope of Biotechnology. View B.Sc. Psychology The Bachelor of Science in Psychology (BSc Psychology) is a three-year undergraduate degree that examines the human mind, emotions, and behavior. In addition, it addresses mental illness and crisis management. View BSc Environmental Science BSc in Environmental Science is a 3 Year undergraduate program that teaches students about the environment, its processes, and how to handle environmental challenges View B.Sc. (Bachelor of Science) Microbiology B.Sc. Microbiology is a Bachelor of Science in Microbiology is a three-year undergraduate program that studies the biology of viruses, protozoa, fungi, and bacteria. View B.Sc. Genetics Course Bachelor of Science in Genetics (B.Sc. Genetics) is an undergraduate program focused on biological variations, living body mechanisms, heredity, and how genes are passed down. Such as Biochemistry, Molecular Biology, Microbiology, Zoology View B.Sc. Biochemistry B.Sc Biochemistry (Bachelor of Science) is a 3-year undergraduate course that studies chemical and physiological processes. This branch of science applies chemistry to the study of living organisms and their atoms and molecules. View BCA - Bachelor of Computer Application View MSc Biotechnology PG Degree Program MSc Biotechnology is a post graduate degree program that focuses on the application of biology in science, medicine, and technology. This course prepare students for careers in research, healthcare and other industries. View M.Sc Biochemistry MSc in Biochemistry. It is indeed a two-year full-time postgraduate degree program that provides students with advanced knowledge and skills in the field of biochemistry. The program covers a wide range of topics, including molecular biology, enzymology etc. View M.Sc Microbiology MSc program in Microbiology. The program includes required and elective courses, and students can also opt for graduate certificates in Environmental Microbiology, Microbiome and Health, Medical Microbiology, Agricultural Microbiology View M.Sc. Applied Genetics View M.Sc. Food Technology Course | PG Degree Course An MSc in Food Technology is a postgraduate program that focuses on the scientific principles behind food production, processing, preservation, packaging and distribution. 2021 website: www.pims.org.in POLICY Research & Innovation Policy RESEARCH AND INNOVATION POLICY Preamble: Padmashree Research Centre affiliated with Bangalore University has an excellent ecosystem for research activities. The institution is committed to providing support to quality research and has a mission to address scientific challenges to society and the environment. The research team and advisory committee are continuously striving towards excellence in research. Research collaborations with reputed academic institutions and industries are vibrant and intellectually stimulating. The goal of Padmashree is to achieve research excellence and disseminate innovations to the entire world. The quest for innovation and research is proven with a track record of securing projects and grants from state, national , and private agencies. Research advisory is a good amalgamation of academic, and industry experts and made continuous efforts in inculcating scientific temper and igniting creative spirit. We encourage student research projects and train them to secure small research grants for pursuing the research. This policy aims to nurture research culture and cater to the good of society through innovation and technology transfer. Ethics is the central dogma of the Padmashree research center and policy reiterates the research principles and ethics. Faculty and students are encouraged to undertake research, leading to quality publications, presentations in national conferences of repute, generation of intellectual property for communication that is of useful for society. A clear demarcation of funds and resources will surely strengthen our research, and this will attract distinguished faculty to develop a culture of research and stride to achieve national and international recognitions and publications. Establishing chairs and fellowships can help nurture research at Padmashree Institute of Management and Sciences. Research policy is aimed at design and deployment of policies on innovation, patenting, academic integrity, and commercialization of technology through consultancy. Research & Innovation Policy Overview of Research and Innovation policy Purpose of the Research Policy The policy provides guidelines and defines the roles and responsibilities of all the stakeholders. The policy shall serve as a general outline for the conduct of all types of research activities of the Institution. The policy document enables the research and innovation culture, provides strategies, and enables effective implementation. The purpose of the research policy is to create a vibrant atmosphere of research among faculty, students, and researchers. The policy aims to facilitate the efficient implementation of excellence in research, innovation, and collaboration and raise awareness pertaining to best practices in research and innovation. Research & Innovation Policy Scope of the Research Policy The policy will be applicable to all the departments of the institute and applicable to all the faculty and students either funded or otherwise. This is applicable to all the members pursuing research within/outside institution premises. The research policy pertains to the wide strategic interests of the institution including partnerships, collaborations, publications, consultancies, and MoUs. Objectives ■ To foster research culture and extend support to research and innovation within the research framework and guidelines. ■ To design strategic research policy and inculcate good governance to achieve a center for excellence. ■ To ensure quality and ethics in the research publications. ■ To provide systems for coordination among the research team and with collaborating institutes or individuals. ■ Providing modality for proper coordination of all research activities aligning with the vision and mission of the institution. ■ Ensure publications in quality journals, indexed in Scopus/web of Science with impact factor. ■ Integrate research activities undertaken by the students with the research focus of the institution in alignment with the societal impact. ■ Promoting technology transfer and translational research, into deliverable products and processes for commercialization. Custodian of the policy The implementation and updating of the research policy shall be carried out by the director/head of research, Padmashree research center. The research policy shall have a research advisory body to function under the board of management and director. The Director along with the research coordinator will

Dear Students and parents, Greetings from Padmashree Institute of Management and Sciences, Choosing a right career path after 12th/PUC is a challenging task. Today modern world opened up for umpteen opportunities and making students and parents much more confused. Leaving aside engineering and medical there are hundreds of parallel, innovative and job-oriented programs, which many of us are not aware. To create awareness and help them to take a conscious decision we at Padmashree Group of Institutions is bringing this comprehensive hand book. The purpose of this book is to provide information, web links about various other options in life sciences, paramedical courses and more importantly information about scholarships for Pursuing higher education. This will surely assist students to take an informed decision. This is a noble and humble attempt by us to lend a helping hand for students who are at the cross roads. www.shiksha.com | www.promilo.com www.mapmytalent.in | www.careerafter12th.in www.youngbuzz.com | www.youthofest.com www.jagranjosh.com | www.aashwasan.org www.career.webindia123.com ABOUT PADMASHREE INSTITUTE OF MANAGEMENT AND SCIENCES Padmashree Institute of Management and Sciences (PIMS), had its start in the year 2000. The motto of PIMS is to impart quality education, inculcate scientific temper and ethical values among its students. Now the institute has accelerated its expansion in establishing new courses of scientific and global importance. Under the able governance and leadership The college has been recognised by UGC under sections 2(f) and 12(b), affiliated to Bangalore university and recognised by Government of Karnataka. PIMS is one and only DDU KAUSHAL Kendra in Bangalore, supported by UGC, New Delhi and approval from the state government to offer unique job-oriented courses in Food sector

and Medical Biotechnology. Government of Karnataka and DBT, New Delhi supported to establish prestigious Biotech Finishing School in phase I and continued as Biotechnology Skill Enhancement Program in phase II. PIMS also has recognised R&D; center with state of art laboratory facilities (Sprawling 35 acres of Campus (Qualified and experienced faculty (Industry live projects and paper publications by students (Regular industry interactions (Job-oriented add-on programs (100% placement assistance (Secured prizes in conferences and seminars (Published many research articles and filed patents (Academic and Industry collaborations (Industry and Government sponsored projects HIGHLIGHTS OF PIMS We wish you all the best The list of web links which provide guidance and career counselling GreetingsInformation about the scholarships / Financial Assistance: Scholarship is boon for economically weaker section of students. This is beneficial to students who are unable to continue their education for some or the other reason. Scholarship is an incentive as well as encouragement for students, who are talented, but do not have the means to study fur - ther. There are a variety of scholarships – merit-based, need-based, stu - dent specific, career-specific, and college-specific. There are some useful details mentioned below: Central/State government scholarships: 1. National Scholarship Portal: National Scholarships Portal is one- stop solution through which various services starting from student application, application receipt, processing, sanction and disbursal of various scholarships to Students are enabled. This initiative aims at providing a Simplified, Mission-oriented, Accountable, Responsive & Transparent ‘SMART’ System for faster & effective disposal of Scholarship applications and delivery of funds directly into beneficiaries account without any leakages. The Mission Mode Project (MMP) of National Scholarship Portal under the National e-Governance Plan aims at providing common electronic portal for implementing various Scholarships schemes launched by Union Government, State Government and Union Territories across the country. Through this single portal students can apply for scholarships of Central scheme, UGC scheme and State scheme. Revised Guidelines of IQAC and submission of AQAR The Annual Quality Assurance Report (AQAR) of the IQAC All NAAC accredited institutions will submit an annual self -reviewed progress report to NAAC, through its IQAC. The report is to detail the tangible results achieved in key areas, specifically identified by the institutional IQAC at the beginning of the ac ademic year. The AQAR will detail the results of the perspective plan worked out by the IQAC. (Note: The AQAR period would be the Academic Year. For example, July 1, 2012 to June 30, 2013) Part – A 1. Details of the

Power to make rules 7. Power to remove difficulties 8. Repeal and savings STATEMENT OF OBJECTS AND REASONS Act 01 of 2023:- A Bill to provide for reservation of seats in educational institutions in the State of Karnataka and of appointments or posts in the services under the State for the persons belonging to the Scheduled Castes and the Scheduled Tribes in the State. Whereas, the State of Karnataka was formed from the erstwhile Mysore State and the Mysore State joined the Indian Dominion in the year 1948 and whereas the President of India issued an order under Article 341 and Article 342 of the Constitution of India declaring certain castes to be the Scheduled Castes and Scheduled Tribes. Whereas, the number of castes increased drastically after the inclusion of some more communities, total population of th e Scheduled Castes and Scheduled Tribes in the State went up by leaps and bound. Whereas, in the year 1976 as per the Scheduled Castes and Scheduled Tribes Orders (Amendment) Act, 1976 (Central Act 108 of 1976) the geographical limitations attached to the castes were removed which also led to extraordinary increase in the population of the 2 Scheduled Castes and the Scheduled Tribes in the State of Karnataka. Whereas, the State of Karnataka had provided reservation vide Government Order E - 185-285 RBS -35-34-2 during April 1955, a combined reservation of 18% for the Scheduled Castes and Scheduled Tribes. Whereas, the reservation quota provided to the Scheduled Castes and Scheduled Tribes continued to remain the same as it was in the year 1958, i.e., 15% for the Scheduled Castes and 3% for the Scheduled Tribes, though their population and coverage of number of castes increased subsequently. Thereafter, the Government vide G.O.No. GAD (OM) 46 GRR 57, dated 04.02.1958 pending collection of data tentatively arrived at reservation for the Scheduled Castes at 15% and the Scheduled Tribes at 3%. The same percentage of reservation has continued in the latest Government Order No.SWD 225 BCA 2000, dated 30th March 2002 as under: (a) Scheduled Castes: 15% (b) Scheduled Tribes: 3% (c) Backward Class: 32% Whereas, there has been a continuous demand and request by the members belonging to the Scheduled Castes and the Scheduled Tribes for increase in t he reservation

percentage, both in public employment and in educational institutions, as there was no adequate representation as per the constitutional mandate, and the Nayaka student's association approached the High Court of Karnataka. Whereas, the High Court of Karnataka in W.P.No.16852/2015 directed the State Government to consider the representation filed by Nayak Students' Welfare Federation for increase of reservation to the Scheduled Castes and the Scheduled Tribes. In order to take a decision in t his regard as directed by the Hon'ble High Court and to procure empirical data, the State Government appointed a Commission headed by Mr. Justice H.N. 3 Nagamohandas, former Judge, High Court of Karnataka by way of a Reference Order No.SWD 303 PVY 2015, dated 22.07.2019. Whereas, the Commission has undertaken an extensive study of the reference so made and submitted a report to the State Government on 02.07.2020. The salient features of the report include,- (a) evidence of social and educational backwardness that renders many of the castes and communities under the Scheduled Castes and the Scheduled Tribes marginalized and still outside the mainstream (the Particularly Vulnerable Tribal Groups (PVTGs), Manual sca vengers, SafaiKarmacharis, Devadasis, Nomads, semi-nomads etc). (b) such backwardness is much starker in few communities who are living in the far -flung areas in the Western Ghats in addition to the dry regions of the state like Dakkligaru, Dholi Bhil, Maleru , soligaru etc. These communities have not been able to get the benefit of reservation adequately. (c) when compared with their population, there is evidence of inadequate representation in educational institutions, employment in the Government, for the Sched uled Castes and the Scheduled Tribes, which renders their attempt to come out of the backwardness extremely difficult. (d) the landholdings of the Scheduled Castes and the Scheduled Tribes is disproportionate and starkly less compared to their population and t hat reinforces the social and educational backwardness. (e) based on the above study, a special case is made out for increasing the reservat
